

## Citation Status Subsets

**Publisher**-- citations recently added to PubMed via electronic submission from a publisher

*Example:*

White cell differential count and influenza A.  
Am J Med. 2005 Nov;118(11):1306-1307. No abstract available.  
PMID: 16271935 [**PubMed - as supplied by publisher**]

**In Process** – MeSH vocabulary will be assigned in the near future

*Example:*

Canine influenza virus.  
Vet Rec. 2005 Nov 5;157(19):599. No abstract available.  
PMID: 16272554 [**PubMed - in process**]

**medline** – citations have been indexed with MeSH, etc., and reviewed for accuracy

*Example:*

Rabies control in South and Southeast Asia.  
Vaccine. 2005 Mar 18;23(17-18):2284-9. Review.  
PMID: 15755612 [**PubMed - indexed for MEDLINE**]

**pubmednotmedline** – reviewed for accuracy, but out of scope for MeSH Indexing

*Example:* quasar AND magain [auth] pubmednotmedline [sb] results in

Discovery of a bright quasar without a massive host galaxy.  
Nature. 2005 Sep 15;437(7057):381-4.  
PMID: 16163349 [**PubMed**]

## Subject Subsets [SB] Examples

**AIDS** — hospice AND aids [sb]

**Bioethics** — suicide, assisted AND bioethics [sb]

**Cancer** — bioethics [sb] breast neoplasms/diagnosis AND cancer [sb]

**Complimentary Medicine** — black cohosh AND cam [sb]

**History of Medicine** — Darwin [ps] AND history [sb]

**oldmedline** – citations previous to 1966; not as well indexed

**Space Life Sciences** — exercise AND space [sb]

**Systematic Reviews** — Tocolytic Agents AND systematic [sb]

**Toxicology (tox)** — Arsenic AND tox [sb]

## FIELD NAME [TAG] SEARCHES

Search Fields follow search terms in square brackets.

For example, to search diabetes as a MeSH term:

Type diabetes mellitus [MH] in the search box in PubMed.

### Author Affiliation [AD]

First listed author's institutional affiliation

### Author [AU]

Author name

### Corporate Name as Author [CN]

Corporate names as authors

### EC/RN Number [RN]

CAS Registry Number or Enzyme Commission Number

### Entrez Date [EDAT]

Date citation was added to database

### Journal Title [TA]

Title of journal

### Language [LA]

Language of the article (not the abstract)

### MeSH Major Topic [MAJR]

Main topic of an article

### MeSH Subheading [SH]

MeSH Subheading

### MeSH Term [MH]

MeSH Term

## FIELD NAME [TAG] SEARCHES (Continued)

### Personal Name as Subject [PS]

Person as the subject of an article, not as an author

### Publication Type [PT]

Format of an article (letter, clinical trial, etc) rather than content

### Subset [SB]

Subject and citation subsets

### Substance Name [NM]

Chemical and substance names discussed in an article

### Text Word [TW]

Textual fields of PubMed records

### Title [TI]

Article title

### Title or Abstract [TIAB]

Words in an article title or an abstract

## Full text in PubMed:

**Free full text [sb]** – links to free full-text article

**Full text [sb]** – links to full-text article (not free)

**!oprovuvirlib[filter]** – all full text from UVA's library's

## Journal/Citation Subsets

**d** dentistry journals

**e** citations from the bioethics journals

**h** health administration journals

**k** consumer health journals

**n** nursing journals

**q** history of medicine journals

**s** citations from space life sciences -  
111 journals

**t** health technology assessment  
111 journals non-Index Medicus

**x** AIDS/HIV journals (selected citations  
111 from other journals 1980-2000)

### Searching Journal/Citation Subsets:

Enter the following in the search box:

jsubset*letterofsubset* AND search term

Ex: jsubsetk AND diabetes

### Search Tip:

Always type the Boolean Operators **AND**, **OR** & **NOT** in capital letters.
