1. Click on the drop-down menu for Bibliography manager and select RefWorks. Each citation will now have an Import into RefWorks option (see example below).
2. Click on Library links then search and select University of Virginia. This will provide you direct access to journal content licensed by the University of Virginia.

**Lyme disease-a tick-borne spirochetosis?**

*W Burgdorfer, AG Barbour, SF Hayes, JL Benach… - Science, 1982 - sciencemag.org*

Abstract A treponema-like spirochete was detected in and isolated from adult ixodes dammini, the incriminated tick vector of Lyme disease. Causally related to the spirochetes may be long-lasting cutaneous lesions that appeared on New Zealand White rabbits 10 to ...
